

MICHAEL BARBICK, M.D., D.M.D.

ORAL AND MAXILLOFACIAL SURGERY

WHETHER IT IS THE REMOVAL OF WISDOM TEETH, THE PLACEMENT OF DENTAL IMPLANTS, OR THE RECONSTRUCTION OF THE FACE FOLLOWING A TRAUMATIC ACCIDENT, DR. MICHAEL BARBICK HAS COMPETENTLY HANDLED WHATEVER PROFESSIONAL SITUATION HE HAS FACED.

He is a graduate from the University of Florida, where he obtained his medical and dental degree. Dr. Barbick is board certified by the American Board of Oral and Maxillofacial Surgery and a Fellow of the American Association of Oral and Maxillofacial Surgeons.

Dr. Barbick is happy to announce the addition of Dr. Manik Bedi, D.M.D., M.D., to his practice. "His intense surgical training with oral surgical procedures in addition to facial/full body cosmetic surgery is going to be an asset to the practice and the community of Tampa." Dr. Bedi, who will be joining the practice in July, is also a graduate from the University of Florida and had additional fellowship training in cosmetic surgery. Dr. Barbick and Dr. Bedi see patients at two locations in Carrollwood and Wesley Chapel.

Given their outstanding reputation and busy schedule, it is no surprise that plans for a third office are already in motion. "I model my offices to create a home like environment. I want my patients to feel comfortable and know they are going to be treated in the same manner as I would treat my own family."

Dr. Barbick and Dr. Bedi are qualified to treat a wide spectrum of surgical issues for pediatric, adolescent, adult, and senior patients. Their medical knowledge and surgical background gives them the ability to be comfortable treating the most complex surgical cases and medically compromised patients. Dr. Bedi's fellowship training in cosmetic surgery will add to the spectrum of procedures already offered in their offices and surgery center.

Professionally, Dr. Barbick makes it a priority to give back to the community. Dr. Barbick participates in "Give Kids a Smile," a charitable program that helps treat children who are unable to afford treatment. "We perform any facial surgical procedures these children need," he says. "I was blessed with the ability to be a surgeon, so I use my skills to help out in any way I can to those who are less fortunate."

Prior to opening his Tampa offices, Dr. Barbick spent five years in St. Louis, Missouri, where he had his private practice and participated in an academic setting teaching surgeons. He participated in two of the city's busiest level 1 trauma centers while teaching in a surgical fellowship to resident oral facial surgeons and plastic surgeons.
